EXPERIENCE

TECH RUNNER (TECH SUPPORT)

DNEG • MONTREAL, CANADA

AUG 2019 – PRESENT

- Problem solving in a logical and practical way to solve complex hardware and software issues.
- Using Git version control to update and track changes in system files.
- Creating basic bash and python scripts to speed up repetitive tasks.
- Imaging, deploying and troubleshooting issues in Linux, MacOS and Windows.
- Utilising visualisation software and system logs to track computer and network performance to help diagnose problems and increase user productivity.

KEY HOLDER

TORO TAQUERIA • OTTAWA, CANADA

NOV 2018 – JUN 2019

RESTAURANT MANAGER

LIVING VENTURES (GRAND PACIFIC) • MANCHESTER, UK

JUL 2017 – AUG 2018

- Managed a team of over 30 staff and oversaw day-to-day restaurant operations.
- Completed weekly restaurant accounts, followed by analysis of data and implementation of measures to ensure continued restaurant profitability.
- Conducted weekly stock audits to analyse and address any major variances.
- Gave presentation to board members and the managing director on improving efficiency, operations and training.

SERVER AND CULTURAL REPRESENTATIVE

WALT DISNEY WORLD • FLORIDA, USA

SEP 2015 – DEC 2016

- Worked in a fast paced and service driven environment, whilst representing my culture in the 'UK Pavilion'.
- Problem solved and organised tasks daily to make the job as efficient as possible without compromising guest experience.
- Led the onboarding process for new employees, implementing the Disney Training Guidelines & executed performance assessments.
- Received four 'applaus-o-gram' awards in recognition of my excellent guest interaction.

EDUCATION

B.SC. BIOMEDICAL SCIENCES
